

ALVA [al-vAH]

MANUFACTURER: Karl Andersson | DESIGNER: Rainer Mutsch

Alva is a sophisticated shelving solution. With refined angles and exquisite details, Alva comes in various sizes and two styles, circular or racetrack. Built by utilizing the torsional strength of wood to create a solid structure, the frame's design showcases the resilient beauty of the material. The narrow circular frame is a perfect corner storage unit, and the large racetrack frame makes for a great room divider in touchdown spaces. Alva is available in solid ash or oak and various finishes. The shelving arrives assembled, with adjustment screws on the base. Shelves and wooden frames are detachable.
