

CURLING

MANUFACTURER: Materia | DESIGNER: Axel Bjurström

Beautifully designed, Curling is an ergonomic, comfortable solution for working on the go. The laptop table hovers above the floor, and a groove is milled into the underside of the top to make it easy to pull the table towards you. The asymmetrical tubular steel frame connecting the tabletop to the base allows space to place Curling over the sofa's edge effortlessly. Curling has an MDF tabletop with a tubular steel frame, die-cast aluminum base, and plastic glides.
