# FIELDS

*Imagine a landscape where areas with different characteristics form a coherent whole. Customised for you and for me. Where we have the option of being creative, social or focused. All depending on where and how we position ourselves. Kinnarps, in collaboration with Olle Gyllang from Propeller Design AB, have designed and developed Fields. A warm and inviting range that allows you to create flexible, diverse settings... supporting growth and development of people and ideas.*

## **A SOCIAL AND PERSONAL SOLUTION**

Fields is a contemporary concept that brings together the shared and the private, meetings and working alone, the individual and the group. A range which supports tomorrow's way of working, produced for active workplaces. With Fields you can create shared environments, meeting areas, rooms within rooms, creative settings and spaces for concentrated or private work. Important elements which lay the foundations for cooperation, communication, community and social moments. But also for concentration, study and personal time. The different modules in Fields can be combined, linked together and placed exactly where you need them. With the extensive range, in combination with the large assortment of colours, materials and accessories, you can create the expression you want.

#### **COOPERATION WITHOUT LIMITS**

Stimulating spaces for cooperation are important. It is when we communicate with one another, whether the communication is planned or spontaneous, that something exciting happens. New ideas are born and creative thoughts become reality. We see things from different perspectives, share and help one another to solve problems. With the help of Fields, spaces for co-creation can be designed flexibly and functionally. Both individuals and groups are given the conditions they need to meet in different ways and create something together.

COOPERATION WITHOUT LIMITS

**OLLE GYLLANG – PROPELLER DESIGN AB**

Fields is designed by the Swedish designer Olle Gyllang from Stockholm-based Propeller Design AB, a renowned design agency with extensive experience in industrial design, interaction design and design strategy. A large part of the work of developing Fields was to create ideal conditions for different activity types needed in the working environments of today and tomorrow. From getting away on your own so that you can work and concentrate with no distractions, to various types of meetings and cooperation. The design has been balanced so that the parts can be combined while retaining a coherent expression. With the help of the colours and fabrics in Kinnarps Colour Studio, different styles of setting can be created.

*"The basic concept of Fields is a modular and flexible system where functions and parts can be combined depending on requirements, conditions and space. We have created the building blocks and options; now the architect can step in and use these as a basis for designing high-quality functional workspaces."*

*Design: Propeller Design*

*You can hang a noticeboard on the screen with the aid of the sturdy fasteners. Ideal for project groups or creative meetings, for making quick notes and involving everyone in what is being communicated. Hang flower pots on the screens to lift the atmosphere. Plants add an element of cosiness and bring the working environment to life.*

**KINNARPS NEXT OFFICE™**

During the course of a working day, we carry out many different activities. Nowadays, with the help of technology, we can do them whenever and wherever we like. The need for individual workplaces is therefore on the decline and, instead, the need for flexible, activity-based environments is growing. Where you can find an optimal balance between private and social spheres, between meetings and individual work, and between concentration and dialogue. Fields fits well into these activity-based working environments, being a range which offers variation and can be customised for the activity you want to engage in.

*In today's open working environments it is important to meet the needs of both introvert and extrovert colleagues. With the help of Fields, you can create areas for introverted work, giving secluded space for concentration and personal time. And in a different configuration they can also be an extrovert solution which promotes creative dialogue.*

#### **A MODULAR APPROACH**

The various Fields modules give you the flexibility to create solutions customised for your needs and your working environment. The various units can be combined depending on what sort of expression and functionality you want. The design has been created so that the parts can be combined with a coherent expression. With the help of the materials and fabrics in Kinnarps Colour Studio, environments with different character styles are created.

**TEAMWORK**

When we work as a team, we meet and cooperate in various kinds of projects or workgroups. With Fields, we can create the environments that give us space to work and create together. Creative areas which provide the functionality needed for exchanging experiences and sharing presentations and important knowledge. All so that you can look ahead together and achieve the goals you have set.

**MEETINGS**

Meetings can be either spontaneous or planned. Regardless of how they arise, they are important and are often essential for continued joint development. With Fields, you can create easily accessible "rooms in a room" solutions where various kinds of meetings can take place. In larger or smaller groups, standing or sitting, in the same room or online. Animated, inviting environments which are also structured and provide the necessary functionality. A place where we like to gather to jointly develop something new or evaluate and learn from what we have done.

**SOCIAL MOMENTS**

We all need to take a break at times. To take time to mingle, have a much-needed cup of coffee and recharge our batteries. Meaningful moments that give us an opportunity to get to know each other in a relaxed way. An important issue when modern working is so mobile and often remote. Fields creates places where we are happy to sit down. Colours, shapes, fabrics and plants contribute to an environment where we feel at home.

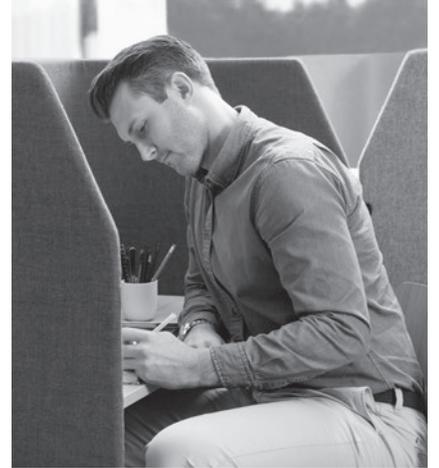

### YOU AND I

It is when we work together, and share our computer screens and ideas, that we solve problems and make progress. With Fields, we find the place we need to be able to converse in peace and quiet. But also the practical environment we need to carry out our tasks efficiently. Screens, sofas and tables give us functionality and privacy so that we can focus. But we still have an openness and proximity to other colleagues, who we can invite in to participate if necessary. All in the service of an active working climate where everyone feels part of the process.

**INDIVIDUAL FOCUS**

In today's open climate it is also important to be able to withdraw in order to be able to focus. To find time to gather our thoughts, hit on new ideas or immerse ourselves in new material. Fields gives you space for individual focus. High-backed easy chairs and screens for privacy give us space to read, think or have a phone conversation undisturbed. With separate work-places with tables and screens, we can write, chat online or send emails. With a power supply and network connection conveniently to hand, you are online to receive information or communicate.

## FIELDS – A SELECTION

Fields offers endless opportunities to create combinations with different expressions and different functionalities. Be inspired by the selections below and visit our website to find out more about this versatile system. [www.kinnarps.co.uk/fields](http://www.kinnarps.co.uk/fields)

### NO 1

A versatile solution which gives you two functional environments. This seating group which combines two 3 seater sofas with screens, coffee table, side table and monitor screen is suitable for either planned or spontaneous small-group meetings. On the other side of the screen is a higher meeting table combined with bar stools. This can also be combined with a noticeboard or monitor screen.

### NO 2

Co-creation space comprising four screens, co-creation table and stools. High-backed screens give privacy and a "room in the room" solution which suits both project meetings and creative meetings. On the inside of the screen is a noticeboard for sketching ideas. On the outside of the screen there are pots with plants for a cosy and animated feel.

### NO 3

This combination consists of screens, tabletop and storage shelves which together form a temporary working area (working cove) and a storage area (storage cove). The working cove gives privacy and a "drop-down area" for individual work. The storage cove is a functional storage solution with shelves for handy storage of binders, brochures or magazines.

**NO 4**

A Fields combination that suits lounge environments. Consists of pouffes combined with screen which forms a backrest, pouffe (1 seater, large, low) and table. The low freestanding pouffe with soft edges and organic lines is easy to combine with various seating groups. The side table is available in laminate or veneer and is also practical to use as a laptop table.

**NO 5**

Here, space for individual focus is combined with a social area. The area for own focus consists of a working cove combined with table and a clothes hook on the outside for conveniently hanging outerwear. The tabletop has a socket for convenient power supply. On the other side of the screen is a social area consisting of sofa, coffee table and pouffes (1 seater). In combination with this meeting space there is also a monitor screen for convenient display of presentations.

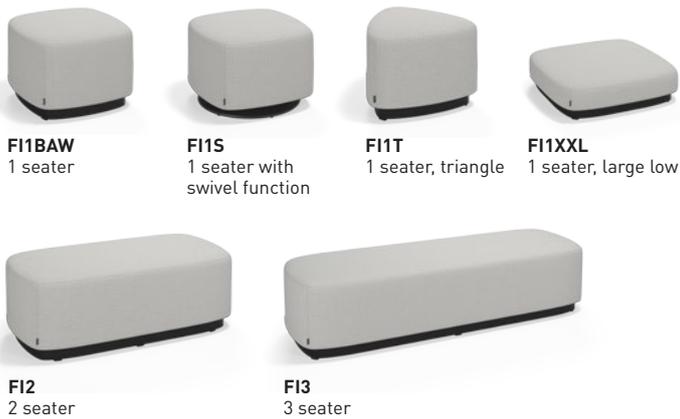

**NO 6**

The flexible modules and linkable screens form configurations which thread their way through the working environment. This solution, comprising sofa with high back, easy chairs with high backs, monitor screen, co-creation table, working cove, pouffe and storage cove, shows how, through one and the same arrangement, Fields supports many different activities during the working day.

## POUFFE

Freestanding pouffe with soft edges and organic lines, easy to combine in various seating configurations. The seat is upholstered with fabric (choose fabric from Kinnarps Colour Studio range), black wood base and black glides (1 seater can also have a foot with swivel function). 2 seater and 3 seater pouffes can also be fitted with a power socket in the base\*.

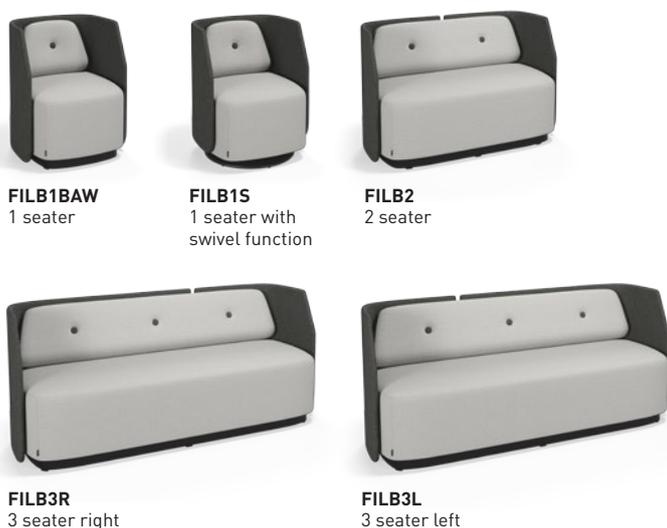

*The low pouffe is an inviting place where you are happy to relax for a while or spend a little social time with your colleagues.*

\* not in the UK

## EASY CHAIR OR SOFA – LOW BACK

Freestanding easy chair and sofa with low back which combine to create various types of seating configurations. The back cushion is shaped to give good lumbar support. The back cushion is included as standard but can be exchanged for a pillow. (Back cushion and pillow are available with or without button). Choose fabrics from Kinnarps Colour Studio for back, seat, back cushion and pillow. Base and foot with swivel function in black wood. 2 seater and 3 seater can be fitted with power socket in the base\*.

*Loose pillows and button available as option. They form an attractive design element which contributes a pleasant feeling of home to the working environment.*

\* not in the UK

## EASY CHAIR OR SOFA – HIGH BACK

Easy chair or sofa with high back which screens off and gives privacy. Linkable, with smart connectors in black, white or silver, for creating larger seating configurations. (Easy chair with swivel function is always freestanding). The back cushion is included as standard but can be exchanged for a pillow. (Back cushion and pillow are available with or without button). Choose fabrics from Kinnarps Colour Studio for back, seat, back cushion and pillow (can be different). All units have black wooden base. 2 seater and 3 seater can be fitted with power socket in the base\*. Easy chair with swivel function (swingback) has metal foot.

**FIHB1BAW**  
1 seater

**FIHB1S**  
1 seater with  
swivel function

**FIHB2**  
2 seater

**FIHB3R**  
3 seater right

**FIHB3L**  
3 seater left

*Mixing and matching different colours on cushions and backs gives a creative expression. For personal and unique combinations.*

## LOVE SEAT – LOW OR HIGH BACK

Love Seat is an easy chair for two with exciting expression and functionality. Consists of two seating surfaces which encourage interaction and dialogue. Available with low back for openness or high back for privacy. Love Seat with high back is linkable, with smart connectors in black, white or silver. Pillow included as standard (available with or without button). Choose fabrics from Kinnarps Colour Studio for back, seat and pillow (can be different). Base in black wood, can also be fitted with power socket in the base\*.

**FILSHB2**  
2 seater high back

**FILSLB2**  
2 seater low back

\* not in the UK

## WORKING COVE

Temporary workplace which gives privacy for individual focus. Consists of screen and tabletop which can be specified at three different heights, depending on whether you want to work standing or sitting (on a bar stool or task chair). Linkable to create new functionality. Stabiliser feet for stable placement, including uneven floor surfaces. Screen upholstered in fabric chosen from Kinnarps Colour Studio and laminate, veneer or solid wood tabletop.

**FIWC740**  
Working cove with tabletop, height 740 mm

**FIWC900**  
Working cove with tabletop, height 900 mm

**FIWC1050**  
Working cove with tabletop, height 1,050 mm

## STORAGE COVE

Storage solution comprising high back and four different fitting options. Fit with shelves for storage of binders, brochures, magazines or other office material. Or with clothes rack for hanging outerwear (clothes rack in chrome-plated metal tubing). Stabiliser feet for stable placement, including uneven floor surfaces. Screen upholstered in fabric chosen from Kinnarps Colour Studio and laminate, veneer or solid wood shelves.

**FISC1**  
Storage cove with 3 shelves, height 1,050/673/296 mm

**FISC2**  
Storage cove with 2 shelves, height 900/740 mm

**FISC3**  
Storage cove with 2 shelves, height 1,050/296 mm

**FISCCR**  
Storage cove with clothes rack, length 1,195 mm

*Storage Cove gives you a functional and well-designed storage solution, all open and within easy reach.*

## CO-CREATION SCREEN

Screen for use as a connector between sofas and easy chairs with high back, Working cove or Storage cove. For connecting on two sides. A practical solution which gives you the possibility of creating flexible environments for work, follow-up discussions or meetings. You can choose to connect tables on one or two sides. The desks are available in three heights and four sizes (600x800, 800x1,100, 600x1,200 and 800x1,400). Also available as freestanding version (see Co-creation table). The screens are fabric-upholstered with a choice of fabrics from Kinnarps Colour Studio. Connectors in black, white or silver.

**FICC2**  
Co-creation screen for connecting  
1,400 x 1,320 mm

## CO-CREATION TABLE

Table for use with Co-creation screen (freestanding). Available in three heights and two table versions (600 x 800 and 600 x 1,200) giving you the choice to work standing or sitting. You can choose whether to put the tables on one or both sides of the freestanding screen. The 740 mm high table can also be combined with a noticeboard and monitor screen. The tables can be fitted with power outlet and cable port for easy connection. Laminate or veneer tabletop and black, white or silver underframe.

Co-creation table,  
height 740 mm

Co-creation table,  
height 900 mm

Co-creation table,  
height 1,050 mm

## CO-CREATION SPACE

Meeting group for up to six people, consisting of screens and table. The tabletop can be placed at three different heights, depending on whether you want to work standing or sitting. The screens are fabric-upholstered with a choice of fabrics from Kinnarps Colour Studio (this can be changed for different screens), laminate or veneer tabletop, black, white or silver underframe and black, white or silver connectors.

**FICC1**  
Co-creation space with tabletop,  
height 740, 900 or 1,050 mm

## COFFEE TABLE AND SIDE TABLE

Well-designed coffee table and side table in laminate or veneer. Placed together with pouffes, sofas, easy chairs or Love Seat. The side table is also practical to use as a laptop table. For use alone or grouped together if needed. White, black, silver or chrome metal underframe.

**FIT63H**  
Side table/laptop table

**FIT66L**  
Coffee table

**AFIT63L**

## SWEDISH-MADE SUSTAINABILITY

Fields focuses on both quality and sustainability. We are responsible for and in control of the whole manufacturing chain, from raw material procurement and production, to transportation and packaging reuse. In our accredited test laboratory, we make sure that the various modules meet international quality standards. The range also fulfils requirements for separability, which enables recycling. The fabrics used are without flame retardants and parts of the range are also FCS labelled. The concept of sustainability permeates the flexible use of the range, since it has been produced to suit everyone – with a focus on well-being, individualisation and freedom of choice.

When you choose Kinnarps, you become an essential part of the chain reaction. Choosing quality solutions characterised by craftsmanship, cooperation and ergonomics means choosing a healthier, happier and more productive team. It also means a more successful and more sustainable business. Everything comes back to THE BETTER EFFECT. [www.kinnarps.co.uk/THEBETTEREFFECT](http://www.kinnarps.co.uk/THEBETTEREFFECT)

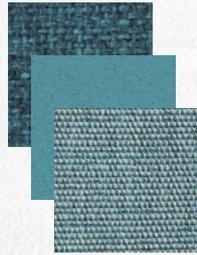

## MATERIALS AND COLOURS

With Fields you can find the best expression to suit your environment. Below, you can see examples of various fabrics which harmonise with each other. (You can find more fabrics on our website.) Combine the fabrics with other materials.

## ACCESSORIES

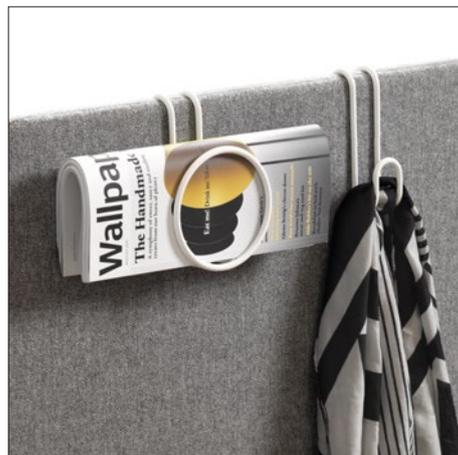

### HANGING FLOWER POTS - GROUP

Flower pot in grey clay to hang over screen. Has room for three flower pots in a row. Black, white or silver holders.

### HANGING FLOWER POT - SOLO

Flower pot in grey clay to hang over screen. Available with short or long hanging hook. Black, white or silver holders.

### HOOKS, S HOOK AND O HOOK

Hook to hang over screen or sofa back. Available in two versions, s hook and o hook, in black, white or silver. The o hook has many possible uses. Designed as a coat hook, but also makes an excellent magazine holder.

### NOTICEBOARD

Noticeboard for screen or sofa back. Secured with hooks and can be moved if needed. Also has tray for pens. White board and black, white or silver hooks.

### MONITOR BRACKET

Practical attachment for hanging monitor or TV screen. To be hung over screen with sturdy fasteners (maximum load is 10 kg).

### SPOT SOCKET

With the spot socket, you have a power supply within easy reach for charging your laptop or mobile. Placed in the base of seating furniture or in tabletops. \* USB only in the UK.

**POP-UP SOCKET**

Open the pop-up by pressing on it gently to give access to a power socket\* and network port. Then just push it down again when it is not in use, and you have a clear and tidy surface.

\* non fused

**POWER BOX**

This powerbox has a socket for power\*, a network connection and a USB port close to hand. It also has a practical cable trap.

\* non fused

**CABLE PORT**

Rectangular cutout for cable port in tabletop. Prevents cables and plugs getting in the way. Black, white or silver grey lipping.

**CABLE PORT**

Cable port fitted to circular cutouts in tabletops. Available in plastic (black, white or grey) or metal.

**CABLING PACKAGE**

Black mesh cable net, screwed in place underneath tabletop. Holds cables and plugs in place so that they do not hang down onto the floor and get in the way.

**MOBILE CHARGER**

Wireless charging unit which charges your mobile phone conveniently when you put it on the unit.

**POUFFE** Seat – plywood and OSB with 65 mm moulded polyether on the top and 7 mm cut polyether on the sides. Upholstered with fabric of your choice (Kinnarps Colour Studio). Base – height 65 mm (excl. glide) – in moulded plywood (beech), black lacquered. 2 seater and 3 seater pouffes can be fitted with power socket in base. Glide, 40 x 10 mm, in black polyamide. The 1 seater pouffe is also available with swivel mechanism (swing-back function). **EASY CHAIR/SOFA** Easy chairs and sofas consist of a pouffe, back cushion and back. Choose between low and high back. Units with low back are always freestanding. Seat and base – see facts about pouffe. Back – moulded plywood (beech/poplar) covered with 5 mm cut polyether which is then upholstered with a selected fabric (Kinnarps Colour Studio)\*. The back is 26 mm thick in total. Back cushion – plywood sheet with cut polyether, shaped to give good sitting comfort and lumbar support. Upholstered with fabric of your choice (Kinnarps Colour Studio). Choose back cushion with or without upholstered button. You can also choose to replace the back cushion with loose pillows. **LOVE SEAT** Love Seat consists of one pouffe, two pillows and two low or high backs. Units with low backs are always freestanding. Seat, base, back – see facts under the heading 'easy chair/sofa' above. **UNIT** mm, kg. **DESIGN** Olle Gyllang/Propeller Design AB.

\* Backs and screens can be upholstered in a limited selection of fabrics.

### WORKING COVE Fixed height 740/900/1,050

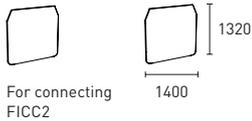

### STORAGE COVE Fixed height 1,050/900/673/296 mm

**WORKING COVE** Consists of a high screen and tabletop which can be placed at three different heights (740, 900 and 1,050 mm). Linkable. The screen consists of moulded plywood (beech/poplar) covered with 5 mm cut polyether which is then upholstered with a selected fabric (Kinnarps Colour Studio)\*. The screen is 26 mm thick in total. Underneath the screen there are four adjustable stabiliser feet in metal and plastic (screw fittings in metal and foot in black plastic (polypropylene)). Tabletop (23 mm) in laminate (white, grey, black, amouk, grey oak), veneer (oak, birch, beech) or solid wood (20 mm, oak, birch). The top has a 2 mm lipping which is made of wood in the veneer option and plastic in the laminate option. The solid top consists of strip bonded solid wood. Underframe – black powder-coated metal. **STORAGE COVE** Consists of high screen and four different fitting options – shelves with three different placement options or clothes rack (chromed tubing, black, white or silver mounting brackets). Screen, top and underframe – see facts under the heading "Working Cove" above. **UNIT** mm, kg. **DESIGN** Olle Gyllang/Propeller Design AB.

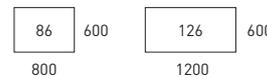

\* Backs and screens can be upholstered in a limited selection of fabrics.

### CO-CREATION SCREEN For connecting

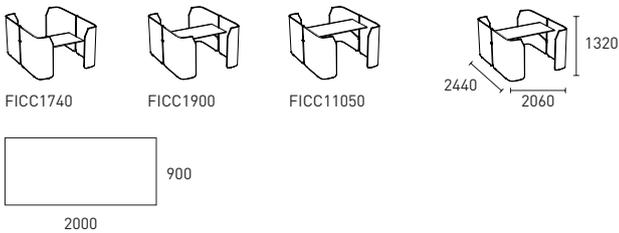

**SCREEN FOR CONNECTING** Intended for use between units with high back. Connectors in black, white or silver. Stabiliser feet. Moulded plywood (beech/poplar) covered with 5 mm cut polyether which is then upholstered with a selected fabric (Kinnarps Colour Studio)\*. The back is 26 mm thick in total. Can be fitted with tables in all heights (740, 900 or 1,050 mm) and four sizes (600x800, 800x1,100, 600x1,200 and 800x1,400), on one or two sides. For 2 seater sofa, recommended table size is 1,100 x 800, and for 3 seater sofa 1,400 x 800 mm, both with 740 mm height. **UNIT** mm, kg. **DESIGN** Olle Gyllang/Propeller Design AB.

### CO-CREATION TABLE Fixed height 740/900/1,050 mm

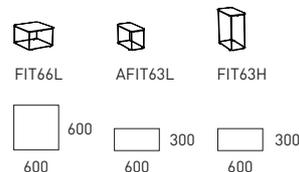

**CO-CREATION TABLE** For use with Co-creation screen (freestanding with stabiliser feet). Table in sizes 600 x 800 or 600 x 1,200 mm. Available in three different heights (740, 900 and 1,050 mm). Tabletop (23 mm) in laminate (white, grey, black, amouk or grey oak) or veneer (beech, birch, oak). Can be fitted with power socket and cable port. Metal underframe (black, white, silver). **UNIT** mm, kg. **DESIGN** Olle Gyllang/Propeller Design AB.

### CO-CREATION SPACE Fixed height 740/900/1,050 mm

**CO-CREATION SPACE** Meeting group for up to six people, with four screens and table. The screen consists of moulded plywood (beech/poplar) covered with 5 mm cut polyether which is then upholstered with a selected fabric (Kinnarps Colour Studio)\*. The screen has a total thickness of 26 mm (screens can be upholstered in different fabrics). The 2,000 x 900 mm tabletop (thickness 23 mm) is available in laminate (black, white, grey, amouk, grey oak) or veneer (beech, birch, oak). The tabletop can be placed at three different heights (740, 900 or 1,050 mm). Metal underframe (black, white, silver). Black, white or silver connectors. **UNIT** mm, kg. **DESIGN** Olle Gyllang/Propeller Design AB.

### COFFEE TABLE AND SIDE TABLE Height 380/660 mm

**COFFEE TABLE AND SIDE TABLE** Tabletop (23 mm). Veneer option (beech, birch, oak) – MDF upholstered with veneer, edges in clear-lacquered MDF. Laminate option (black, white, grey, amouk, grey oak) – chipboard covered with laminate, plastic lipping (matching colour). Underframe in powder-coated or chrome-plated metal (black, white, silver, chrome). **UNIT** mm, kg. **DESIGN** Olle Gyllang/Propeller Design AB.

\* Backs and screens can be upholstered in a limited selection of fabrics.

### FIELDS

**OPTIONS** Pillow (FICU), upholstered button on pillow or back cushion, clothes rack (744793000X). **ACCESSORIES** Flower pot (FIFP), flower pot with short hook (FIHFP1S), flower pot with long hook (FIHFP1L), 3 flower pots with short hook (FIHFP3S), S hook (FIH), O hook (FIOH), noticeboard (FIWB), monitor bracket (FIMH), power socket (T50SPOT), pop-up socket (FIPUS), powerbox (O663), cable port T80 (black, white, grey, metal), mobile charger (T80WCU), cabling package small (FICAK-S) and large (FICAK-L). **DESIGN** Olle Gyllang/Propeller Design AB.

Note that the selection of fabrics is limited. This page contains an overview of existing units and dimensions. For exact configuration options, contact your local sales office.

BETTER AT WORK

We believe in making life better at work. At Kinnarps, we do more than just sell furniture. With products and services to match your needs, we deliver inspiring and effective workspace solutions to help your organisation prosper.
